A005 Outreach Services

Statewide Result Area: Improve student achievement in elementary, middle and high schools
Statewide Strategy: Support parent and community connections

Expected Results

Deaf and hard of hearing students within Washington State will be afforded optimal services in the areas of audiology, speech services, counseling, and psychological support from professionals experienced in the area of deaf education. A mobile fleet of professionals is available to support statewide requests for educational and clinical support to deaf students with an emphasis in serving rural areas where such services may be severely limited. Through its 0-3 Early Intervention Program, WSD will promote optimal early learning, thereby raising deaf children's readiness for formal schooling and increasing learning potential otherwise hampered by the lack of early access to linguistic development. This activity also contributes to the partnerships measure listed within the Administration activity.
